DLBCL-package

*Routines for the functional analysis of biological networks*

---

## Description

This package provides an expression set on diffuse large B-cell lymphoma and an protein-protein interaction network obtained from HPRD release 6. It accompanies the BioNet packages as example data. For further information on the data and the BioNet package, see references below.

`interactome`*Human protein-protein interaction network*

---

**Description**

The dataset contains the human proteome, extracted from the Human Protein Reference Database (HPRD) from 2006 that is used in the ABC GCB diffuse large B-cell lymphoma analysis. The format of the dataset is a graph object.

**Usage**

```
data(interactome)
```
