

# EnsDb.Hsapiens.v75

April 10, 2016

---

EnsDb.Hsapiens.v75     *Ensembl based annotation package*

---

## Description

This package loads an SQL connection to a database containing annotations from Ensembl. For examples and help on functions see the help pages from the `ensemldb` package!

## Note

This data package was made from resources at Ensembl on Wed Mar 18 09:30:54 2015 and based on the 75

## Author(s)

J Rainer

## Examples

```
## load the library
##library(EnsDb.Hsapiens.v75)
## list the contents that are loaded into memory
ls('package:EnsDb.Hsapiens.v75')
## show the db object that is loaded by calling it's name
EnsDb.Hsapiens.v75

## for more examples see the ensemblldb package.
```
